

# ***Grant Evaluation: A Year of Wonder: Monthly Sensory Tubs for TK***

**Applicant's Name: Erin Freitas**  
**School: North Broadway Elementary School**  
**Project Title: A Year of Wonder: Monthly Sensory Tubs for TK**  
**Dollar Amount: \$2,500.63**  
**Subject Area: Early Childhood Education**  
**Grant Type: Classroom Project**  
**Grade Level: TK**  
**Number of Classes That Participated: 3**  
**Number of Students That Participated: 50**  
**Phone Number: 760-432-2462**  
**Email: [efreitas@eusd.org](mailto:efreitas@eusd.org)**

First, thank you to the Escondido Education Foundation for funding this project. The sensory materials purchased through this grant had a tremendous impact on our students throughout the year.

## **High Points**

The biggest success of this project was the level of student engagement. The students absolutely loved the monthly sensory experiences and looked forward to discovering each new theme. The grant allowed us to purchase a wide variety of sensory materials and learning tools, including Tuff Trays, light tables, and supplies for our rice center and other sensory stations. Having access to these resources made it possible to continuously refresh and expand our sensory experiences throughout the year.

The sensory activities supported fine motor development, creativity, language development, problem-solving, and social skills. Students worked together, shared materials, asked questions, and explored through hands-on learning. If you ask any of our students what their favorite activities in class are, they will almost certainly mention the sensory experiences. They became a highlight of our daily routine and were enjoyed by all learners.

## **Low Points**

The biggest challenge was finding enough storage space for all of the wonderful materials and keeping the monthly themes organized. With so many engaging options available, the collection grew quickly. Some of the sensory fillers also needed to be replenished more frequently than anticipated due to daily use by multiple classes.

## **What Students Gained**

Students gained opportunities to explore, create, collaborate, and learn through play. The sensory experiences helped strengthen fine motor skills, encouraged curiosity, expanded vocabulary, and promoted social interactions. Students practiced sharing, problem-solving, and working together while engaging in meaningful, hands-on learning experiences.

## **Evaluation Questions**

### **1. What empirical evidence, if any, do you have to submit to evaluate your project?**

While this project was primarily designed to support developmental learning through play, we observed growth in students' fine motor skills, language use, and ability to engage in cooperative play. Students demonstrated increased independence when using tools such as scoops, tweezers, and droppers. We also collected photographs of students participating in the sensory experiences and documented student engagement through classroom observations and anecdotal records.

### **2. What observations have you recorded and reviewed as evidence your project was successful? Where do you think you could improve?**

Throughout the year, students consistently chose sensory centers during free-choice and center times, demonstrating high levels of engagement and enthusiasm. We observed students using richer vocabulary to describe textures, colors, and materials, as well as increased collaboration and problem-solving with peers. One area for improvement would be creating a more structured system for tracking which sensory experiences most effectively support specific learning goals and developmental skills.

### **3. If you continue with this project next year, what would you do differently?**

If we continue this project next year, I would like to add even more sensory experiences connected directly to our science and literacy units. I would also create a rotation schedule that allows students to revisit favorite sensory activities throughout the year

while continuing to experience new themes. Additionally, I would invest in more storage and organization systems to make managing materials easier and more efficient.

**4. Have you saved all receipts?**

Yes, all receipts are at the bottom of this document.

**Lasting Impact**

One of the best parts of this project is that the materials will continue to benefit students for years to come. The Tuff Trays, light table materials, sensory tools, and themed manipulatives are durable and reusable. Additionally, all TK students at our school have access to these materials, allowing approximately 60 students each year to benefit from these engaging sensory learning experiences.

Thank you again for investing in our youngest learners and helping create a classroom filled with wonder, exploration, and joyful learning. The sensory tubs quickly became one of the most loved parts of our program, and their impact will continue long after this grant cycle ends.
